ACADEMICS

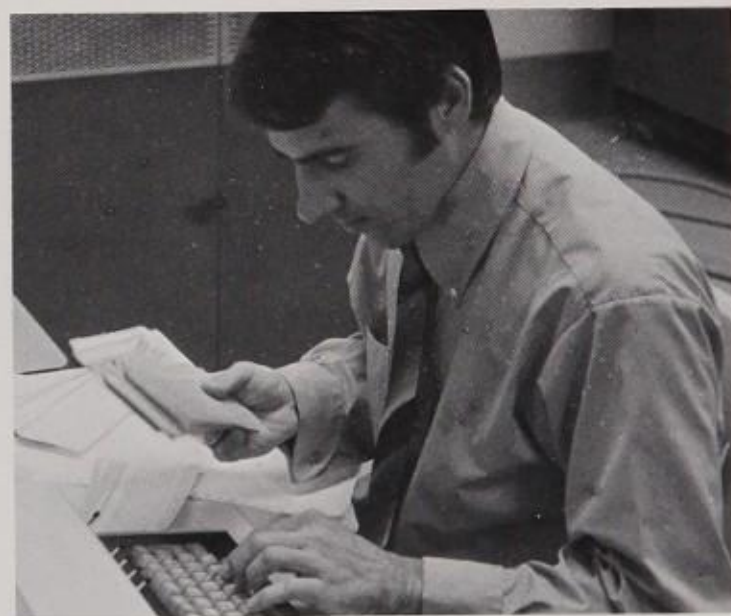

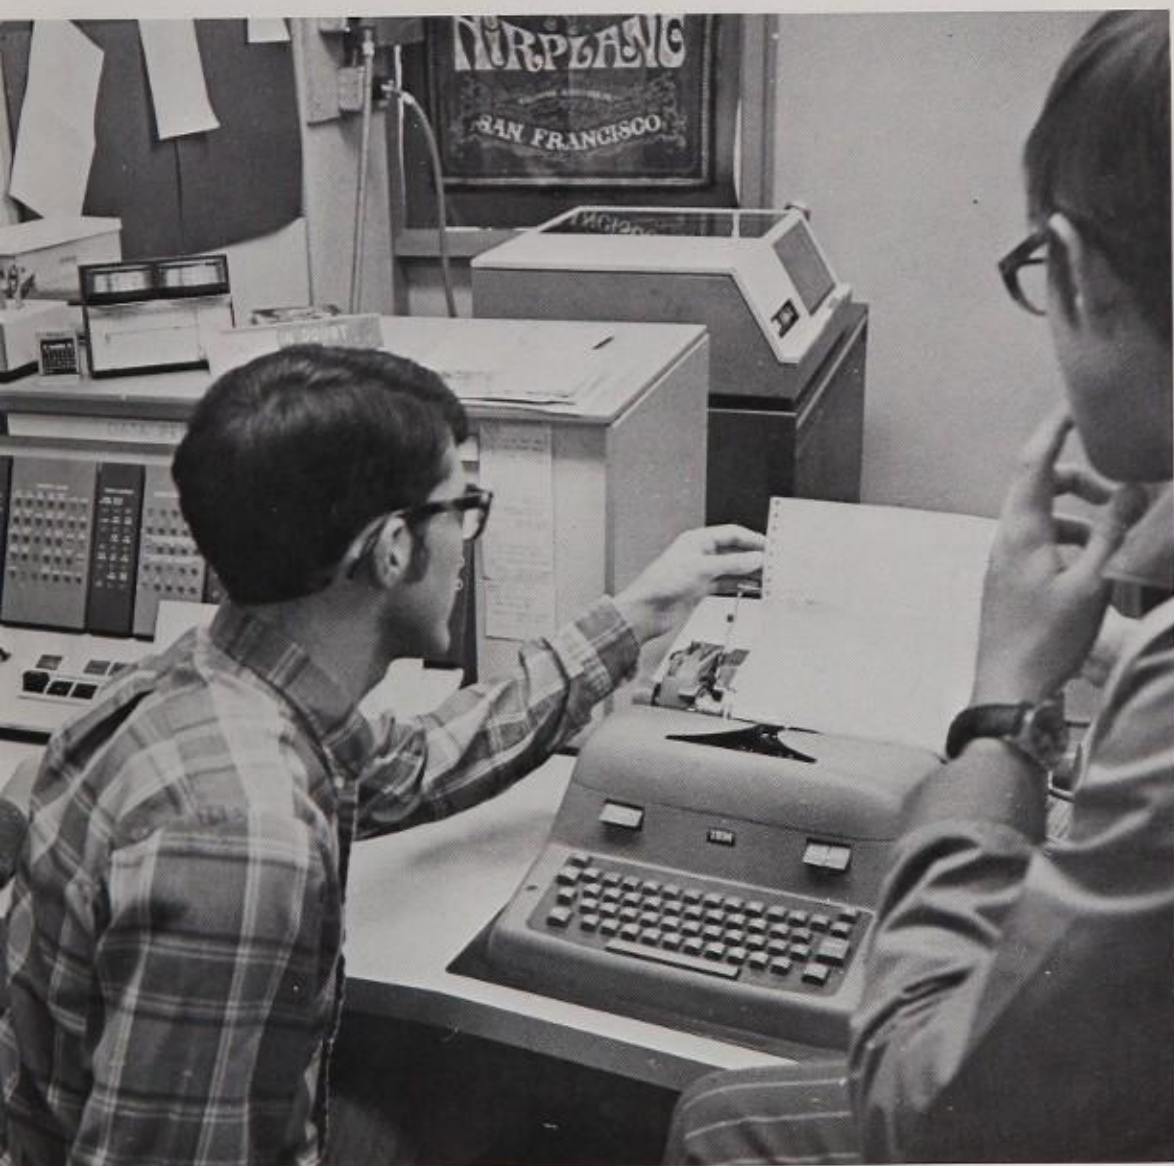

Computer Strengthens Curriculum

Flexibility is not the only reason Los Al has attained such a high level of academic excellence. It is more the PEOPLE who make the system work and their willingness to try new ideas and utilize all the equipment available to improve the educational program.

As one peeks into the world that high schools are preparing their students for, one dominating fact comes to light—There will be a tremendous dependence on complex machines and computers to perform tedious tasks. The addition of the IBM 1620 Computer to aid Mr. Keys in scheduling 2300 students brought a new class—Computer Programming. Taught by Mr. Tamas of the Math Team, this class is designed to give students both the practical and mathematical knowledge needed to operate the computer. Another new learning aid is the foreign language lab which students can benefit from according to their degree of motivation.

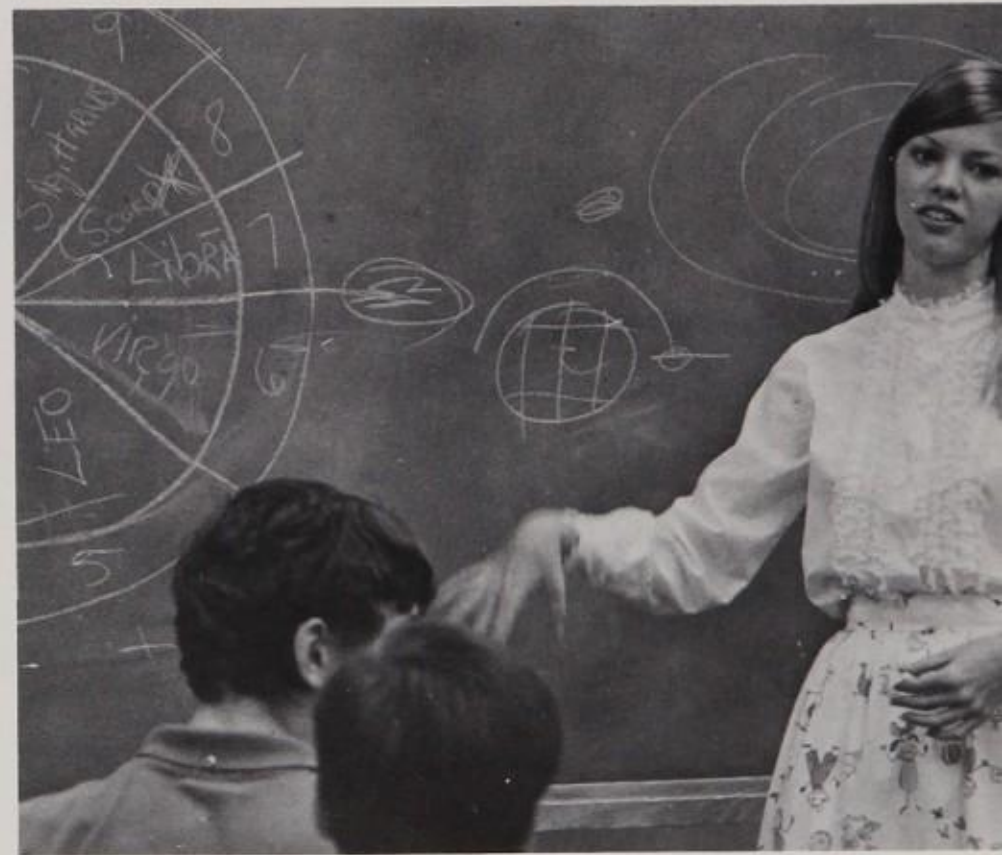

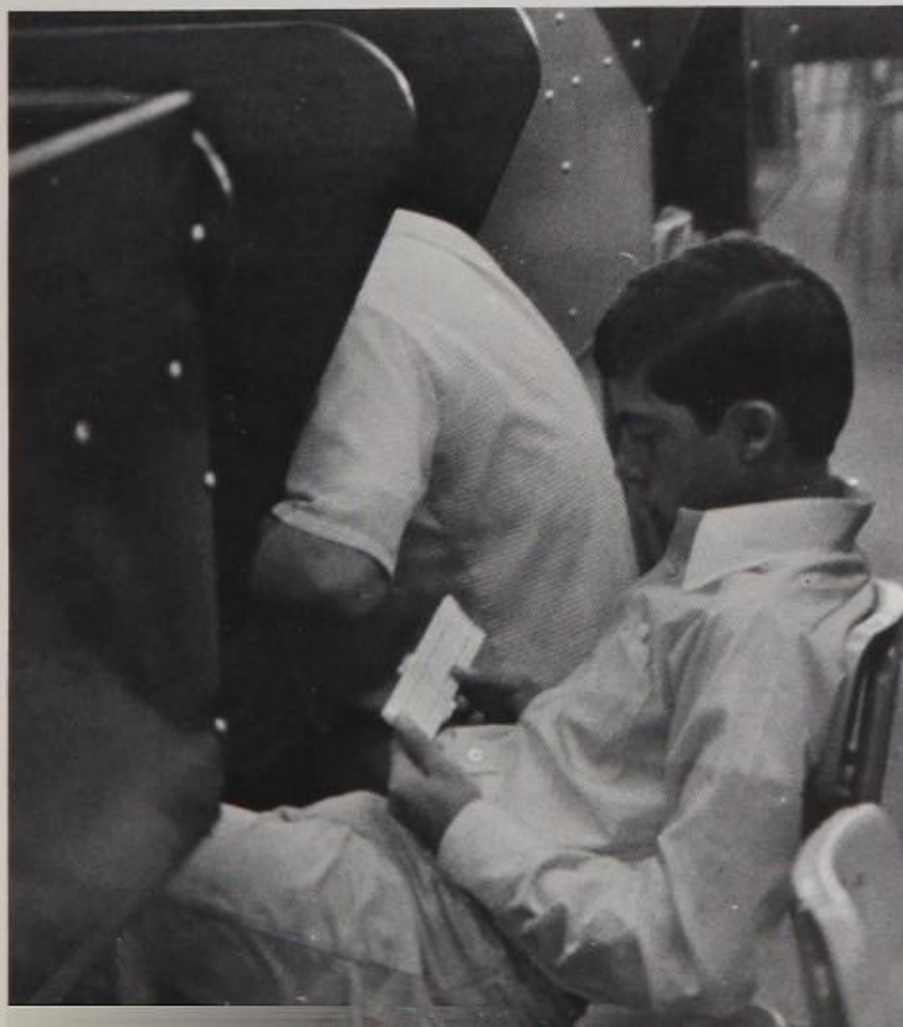

Unstructured Time Breaks Routine

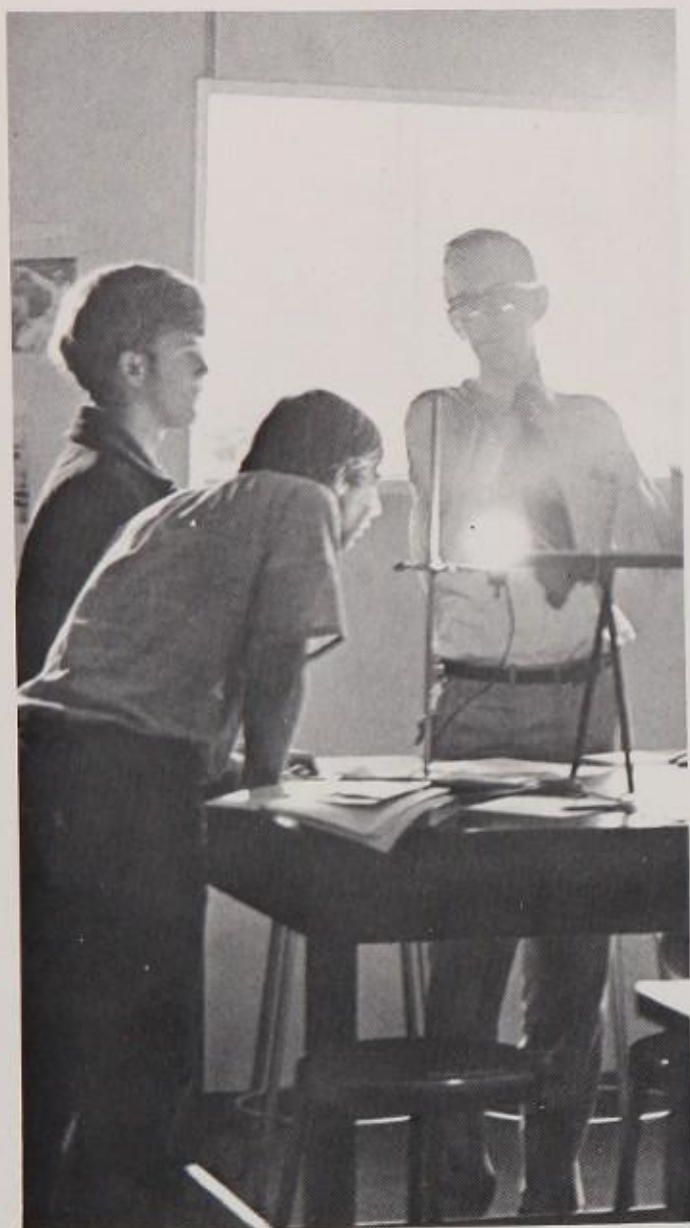

Free time may be a problem for some high schools, but not at Los Al. Students are free to choose how to spend the few mods open.

A truly unique contribution to Los Al's innovative philosophy is the mini course, designed to inform interested students of a wide range of relevant topics. Students select from the "may" schedule and choices have ranged from astrology to the Vietnam War.

Also, student forums led by a panel of students have closed a small part of the communication gap by encouraging more student involvement.

Los Al Tests Responsibility

Variety makes Los Al unique, and offers a broad scope for learning what best suits you. Here, due to the flexible scheduling system, it is possible to work individually, taking courses that fit your needs and getting as much out of them as you desire.

If you take advantage of it, the flexible system provides all the needed freedom to your education without hindering it. The classes themselves prepare you for the future. But the responsibility that goes along with flexibility prepares you also.

Flexibility Modifies Typical Classes

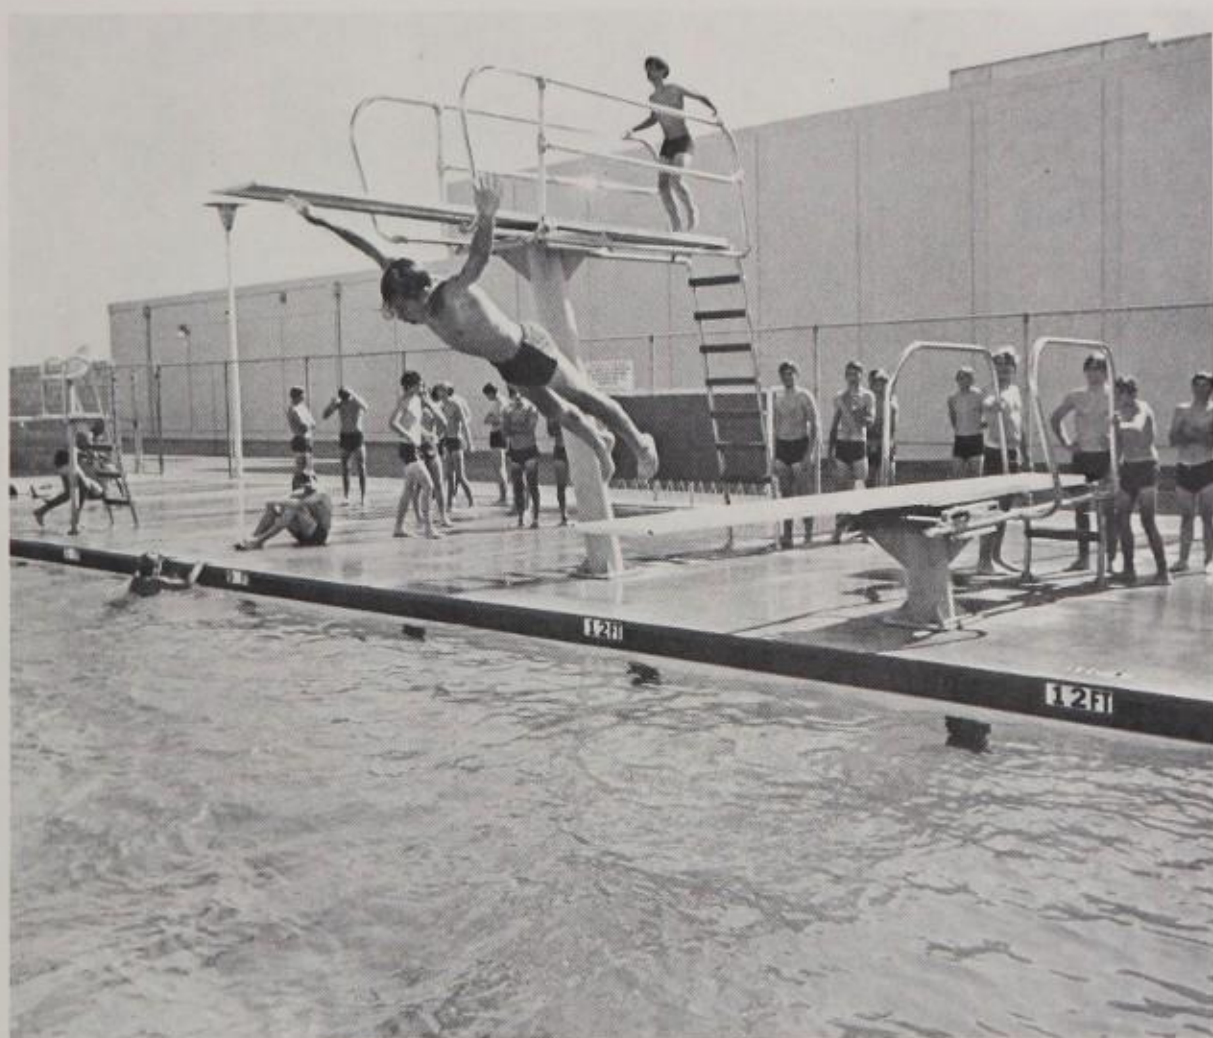

The organization of 15-minute modules to obtain a unique learning atmosphere is the key concept in Los Al's innovative program. One obvious advantage is the way class sizes vary, from small seminars and discussion groups to mass lectures.

Seminars enable the teacher and student to relate on a very personal level. This helps both parties gain deeper

insight to the material and presents more opportunities for self-expression.

Mass lectures teach students the importance of good notetaking and also previews the situation students later face in college. The teacher can offer the lecture once for everyone in the class and avoid repeating it many times as in a traditional school.

HOMECOMING WEEK, NOVEMBER 9-13

One of the exciting events of the year was the return of Los Al's first graduates, the class of 1970. For one week, long ribbons and bright balloons decorated many students and spirit grew in anticipation of the rival game against Magnolia. Among activities was a pep parade down Los Alamitos Boulevard led by the Band and Drill Team that included the alumni, students, and faculty. The parade ended at Wilson Park with a pep assembly honoring the football players. Featured in the festivities was the pageant where, after competition, Queen Pam Turner and her court were announced. A huge crowd, many of which were returning alumni, attended the victorious homecoming football game. Activities came to a close with the homecoming dance, where couples enjoyed the music of the Emperors and the Revolution.

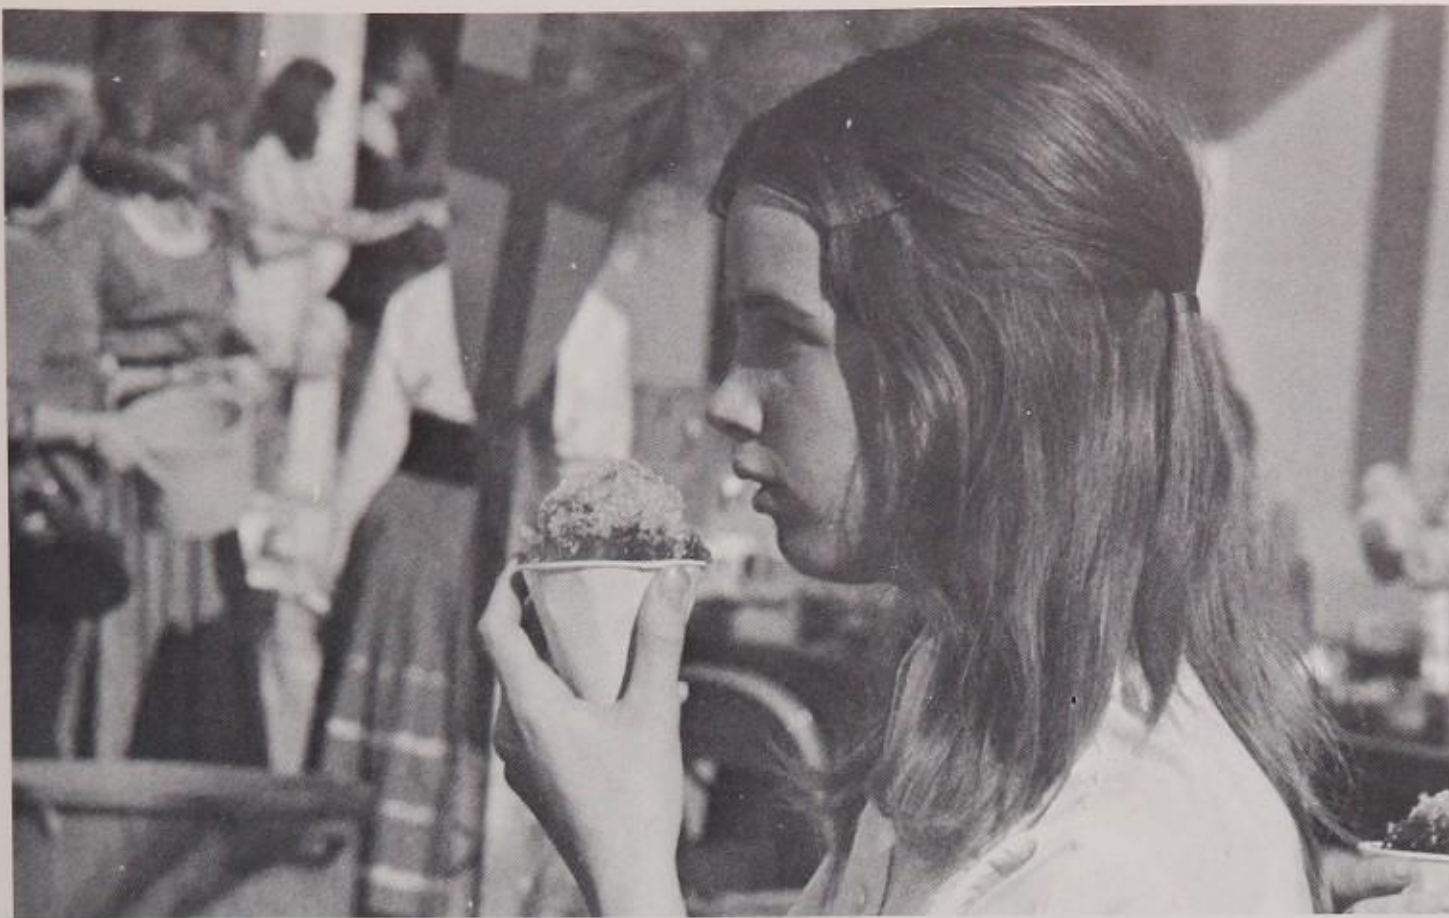

RENAISSANCE FAIRE, DEC. 12

I do my thing, and you do your thing.
I am not in this world to live up to your expectations
And you are not in this world to live up to mine.
You are you and I am I,
And if by chance we find each other,
it's beautiful.
If not, it can't be helped.

AN OLD FASHIONED CHRISTMAS, DEC. 20

While I occupy my mind, I can feel you here
Love to us is so well timed, and I do, I do,
Wasting away these moments so heavenly
Should someone be looking at me

George Harrison

When you can't go on any longer
 Take the hand of your brother
 Every victory brings another
 Carry it on.

So you're down, and so you're out,
But are you really sorry?
Good times come and good times go
So fast it's hard to worry.

Some days you sing, or maybe cry
But that's what life's about.
Hit the pub, and then the church,
Or maybe just get out.

Play it, man—in or out.
But just stay tuned to one thing.
Whether you're up and in, or down and out,
It's your song to sing . . .

Senior Class Advisor: Mr. Tim Smith.

I've known you for years but we were just acquaintances
 until this year it seems like we've become a little bit better friends.
 I think one of the reasons is because of the opportunity! But
 I'm so happy we all were chosen otherwise I might have never gotten
 to really know ya! Hope we become even closer while in Mexico!
 Best of Luck Always!! Love in Friends Pam West

I have experienced
and have reflected upon these experiences
Now, to go forth
amid the noise and impetuosity
and keep these experiences
as remembrances

There has always been a desire to leave
this place - this unforgettable
symbol of my adolescent youth

Yet, now in the imminence
of this separation
I find
I am faltering

For that adolescent part of me
will not gracefully surrender
this structure of my youth

"But I do feel
there is something that I
must accomplish -
Yet, what it is
is not clear to me."

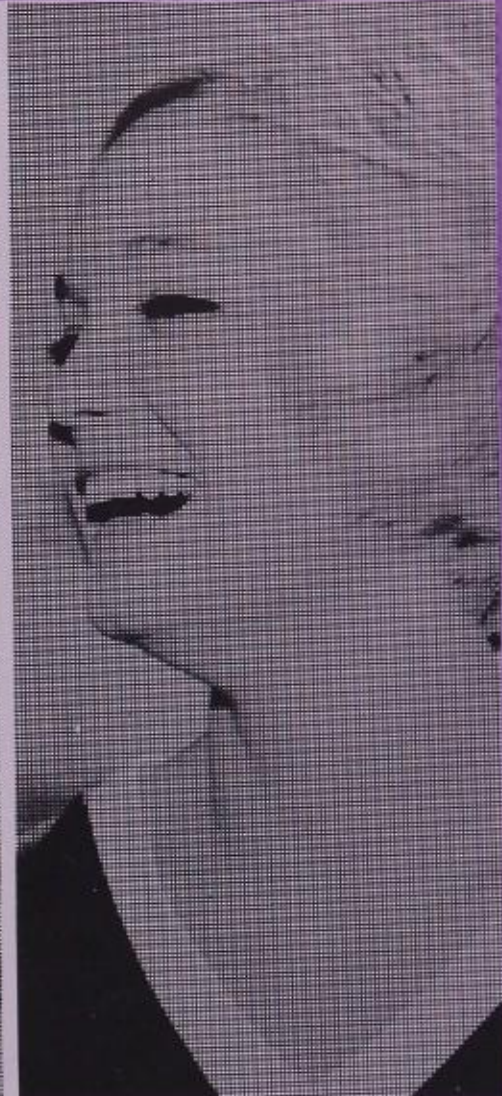

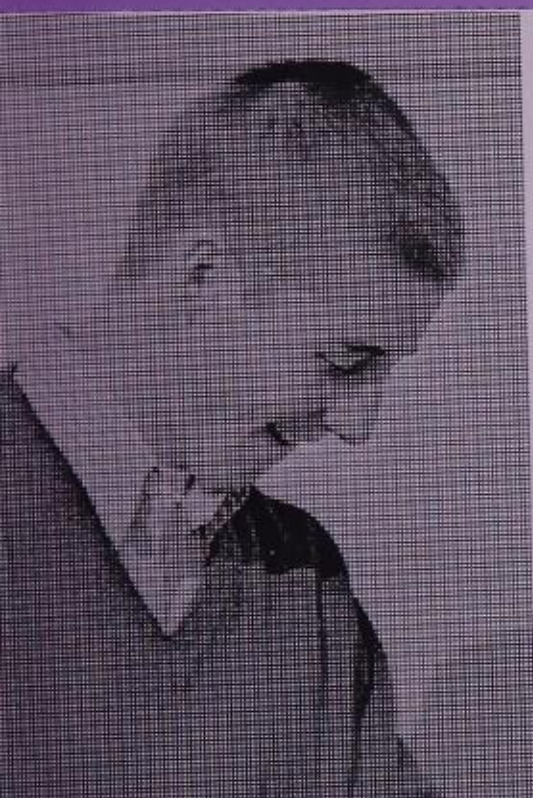

For
"The new world has
begun and the new
world will be terrible
for those clinging
to the old."

Dear Martha -
I have so appreciated
your help this past 2 years.
You have been a real delight!
I wish you all kinds of luck in
your future career - you will be touch
a wonderful nurse. Please keep in touch
with me and let me know if I can
ever give you any help.

Love -
Shirley Wood

Martha -

It's really been a wonderful
few years knowing you. It
has been a number of years -
Six! That's quite a while. I
hope I'll be able to see
you sometime - we'll have
to get together for a weekend
here and there. I wish
you all the best of luck
next year. Bon voyage!

Susan Stone

Martha,
I really haven't seen you as much
as I would have liked to this year,
but I guess we've both been busy,
and minimum day hasn't helped.
I have really enjoyed knowing you
and I know we will stay friends
for a long time. Good luck always
and have fun at UCLA. Come and
see me some week-end when you come
home - and this summer, when you
get back from Mexico.

Love,
Suzanne

Martha,

We've been through so
much together, I hardly
know where to start! Dis-
going to be sad leaving all
our friends, but I suppose
we should think about the
future. It'll be a blast in
Mexico, I can't wait. You've
really been a loyal friend
and I glad we're getting the
chance to be with each other
for awhile this summer. I've
really just started getting to
know ya better. I really didn't
know ya that well and I wish
I had, we've known each other
so long, but we really haven't
known each other in a sense! (Hope ya understand
what I'm saying)

Hope ya have a
"Super" time at UCLA!

Love,

Cathie

Martha,
Well, 3 years are up!
Hardly seems possible.
Take care ur yourself.

Love,

Mark & Tosh

Hi Martha -
My gosh - I haven't seen
you very much this year!
I wish I could have
seen you more often.
But I still got to see you
to say hi! Best of
luck at UCLA - and always!
You're so sweet
Love,
Vicki

You will
Have a great
time where you
are and will enjoy
Do enjoy yourself
and take care. Jim
knows you and Jim
great friends and Jim
glad of that. Your
friend, Cindy Brown.

It was really fun
having you in choir. I'm sorry
I didn't get to hear you play
much - I guess you were doing
more of that last semester when I
wasn't here, but it was nice when
you were playing. Have fun next year

There isn't really much that I can say except for "Thank you. Thank you for a relationship I will never forget. You will be the guideline for any other love I might think I have. Again, Martha, thank you very, very much."
